

Project Lead the Way at Galt High School:

This pre-engineering program follows a national curriculum to prepare students for university programs leading to careers in engineering and architecture. At Galt High, the curriculum consists of one class per school year, beginning in 9th grade with Digital Electronics, followed by Introduction to Engineering, Civil Engineering and Architecture, and Computer Integrated Engineering.

Analysis

- **For the third year in a row, students participating in Project Lead the Way scored higher than students at Galt High School in all 5 subject areas on the 2006 California Standards Tests (CST):** English Language Arts, Mathematics, Science, History/Social Science, and Life Science.
- **For the third year in a row, Hispanic/Latino students in Project Lead the Way scored higher than other Hispanic/Latino students at Galt High and higher than the total student scores for all students in all 5 subject areas of the 2006 CSTs:**

Critical Question: What impact, if any, has Project Lead the Way had in closing the achievement gap for Hispanic/Latino students?

Analysis

- **Project Lead the Way has been an effective program during the past three years at narrowing the achievement gap for Hispanic/Latino students in all four core areas.**
