

**6 – PROGRAMS, INITIATIVES, CO-CURRICULAR,  
NATIONAL AND OTHER STATES**

Documents in this section include profiles of:

- Programs that provide opportunities for students to engage in engineering and technology experiences outside of the regular classroom curriculum
- Programs that provide mentors and support for students outside of the classroom curriculum with the aim of retaining students in engineering and technology disciplines
- Initiatives and campaigns with the goal of informing a large audience about science and engineering disciplines

All programs and initiatives in this section are available either nationally or outside the state of Oregon.
