

## Top Priorities

- Maximize ability of programs to increase number and diversity of future engineering & applied science students
- Assure well planned and implemented programs in the next biennium
- Improve methods for measuring progress
  - To allow mid-course corrections
  - Maximize learning
  - Develop evidence for additional funding

## Guiding Principles

- Foster collaborations
- Transition to targeted investments in next biennium
- Leverage what we have
- Focus on measurable, scalable programs
- Develop solid plans and then implement
- Share expertise, resources, information
- Watch for opportunities
  - Partnerships
  - Collaborations
  - Funding
